PROFESSIONAL SUMMARY

AI & Automation Specialist with hands-on experience building workflow automations and AI-powered solutions using **n8n**. I enjoy simplifying repetitive processes by creating practical, reliable automations that connect different tools, integrate APIs, and improve day-to-day business operations. My experience includes developing AI assistants, CRM and lead management workflows, email automations, and data processing pipelines. I'm passionate about using AI and automation to solve real business problems, improve efficiency, and help teams focus on more meaningful work.
